

SGMC 100 Wireless Addressed Output Module

Finder wireless products are suitable for specific areas of high architectural.

Sagittarius system is based on a proven protocol and manufactured according to PrEN54.

Features

- Two-way communication with wireless transmitter from cable.
- 7 transmission channels (868MHz)
- High security and safe transmission
- Control warranty with central multi-colored LED from 360°
- Battery status monitoring with dual battery special feature.
- Fast, easy and economical installation
- Patented dual orthogonal antennas for secure communication
- Communication with 32 wireless items.

Technical Specifications

Product Code	SGMC 100
Operating Frequency	868-870Mhz
Operating Voltage	24VDC
Switching Capacity	3A @30VDC
Function	1 output
Modulation Type	FSK
Frequency Channel No	7 Kanal
Operating Temp.	-30°C+55°C
Standarts	EN54-7 EN54-25
Certified	CE
