SGMI 100 Wireless Addressed Input Module

Finder wireless products are suitable for specific areas of high architectural.

Sagitarius system is based on a proven protocol and manifactured according to PrEN54.

Features

- Two-way communication with wireless transmitter from cable.

- 7 transmission chanels (868MHz)

- High security and safe transmission

- Control warranty with central multi-colored LED from 360⁰

- Battery status monitoring with dual battery special feature.

- Fast, easy and economical installation

- Patented dual orthogonal antennas for secure communication

- Communication with 32 wireless items.

Technical Specifications

Product Code	SGMI 100
Operating Frequency	868-870Mhz
Modulation Type	FSK
Function	1 input
Frequency Channel No	7 channels
First Battery	CR123A
Second Battery	CR2032A
Operating Temp.	-30⁰C+55⁰C
Standarts	EN54-7 EN54-25
Certificate	CE
