

# 1044TW-N

## Industrial surface mount magnetic contact, extra wide gap, white

### Industrial Surface Mount Contact

---

The Sentrol 1045T series features a wider make distance, which permits faster installation, accommodates greater misalignment and works better on steel without time-consuming brackets. A wider break distance helps prevent false alarms caused by loose fitting doors. Sentrol-specified contacts keep the 1045 series from sticking or freezing on seldom-used doors.

### Applications

---

The contacts are used to protect openings such as metal entry/exit doors, overhead doors, roof hatches or hinged skylights.

### Durability and dependability

---

The Sentrol high performance magnetic contacts have been designed to facilitate installation and ensure durability and dependability. Most are conservatively rated at 10,000,000 cycles, guaranteeing a long life. Every reed connection is hand soldered and each magnetic contact is tested before they leave the factory, 100% of the time.

### Details

---

- Designed for commercial and industrial applications
- Can be used on steel without brackets
- Rugged construction
- Mounting screws
- Concealed terminals resist tampering and inadvertent shorting

# 1044TW-N

Industrial surface mount magnetic contact, extra wide gap, white

## Technical specifications

---

### General

Application type	Surface Mount
Contact type	SPDT
Connectivity	screws terminals

### Wired/wireless

Wired-wireless	Wired
----------------	-------

### Physical

Physical dimensions	99 x 15 x 18 mm
Colour	White
Operating gap	76 mm (max.)
