

# DC101-D

**Aritech, Surface Mount, Wire Leads, Spvd, Vds**

## **DC101-Series**

---

The DC101-Series surface mount magnetic contacts are designed for use in installations where a small, sealed unit is required. The reed switch is totally encapsulated in an exclusive polyurethane potting compound preventing moisture from entering the switch and causing false alarms.

## **Easy installation**

---

The 16 mm standard gap distance allows for fast, easy installation and prevents false alarms from loose fitting doors. Recessed mounting holes make for clean-looking installations.

## **High Quality components and materials**

---

Reed legs are plated with rhodium or ruthenium, and hermetically sealed in dry nitrogen. This offers superior protection against sticking and provides a moisture free environment therefore preventing corrosion.

## **Details**

---

- Comprehensive product range
- Convenient surface mounting
- Standard 2 m wire length
- Tamper loop provided
- Neat and tidy design

# DC101-D

Aritech, Surface Mount, Wire Leads, Spvd, Vds

## Technical specifications

---

### General

Application type	Surface Mount
Contact type	NC
Connectivity	4 wires, 2m

### Wired/wireless

Wired-wireless	Wired
----------------	-------

### Physical

Physical dimensions	50.8 x 9.5 x 9.5 mm
Colour	Beige
Operating gap	15 mm (max.)
