

ACT745-36

Proxkey III sitecode 36

Overview

The new ProxKey II Proximity Keyfob incorporates proximity technology into a device approximately the size of an automotive key. Small and convenient, the ProxKey II Keyfob is always there when you need it, on your key ring.

Features

HID's advanced technology allows the ProxKey II Keyfob to be programmed with up to 37 bits of Wiegand formatted information for universal compatibility with all Wiegand reader applications. The new ProxKey II Keyfob can accommodate an external number for easy identification and control.

Details

- Offers universal compatibility with all HID proximity readers
- Can be placed on a key ring for convenient entry
- Provides an external number for easy identification and control
- HID standard 32-bit configuration
